Office Hours: By appointment

Graduate Assistant: none

Preferred Course Communications: email

Prerequisites: none

Purpose and Outcome: This seminar course is to provide students with a broad overview of the field of neuroscience.

Course Overview: A weekly seminar course with lectures presented by leading researchers in the broad field of neuroscience. Each seminar will be followed by a 30-min 'coffee talk' with the speaker.

Relation to Program Outcomes: This course satisfies a program requirement for students to participate in the weekly seminar series.

Course Objectives and/or Goals: To expose students to the diversity of researchers and research topics that are associated with the broad field of neuroscience.

Instructional Methods: Classes will be virtual, and the links are posted in Canvas.

Seminars:

Thursdays 12:00 PM Eastern Time (US and Canada)

What is expected of you?

You are expected to actively engage in the course throughout the semester. You must come to class prepared by completing all out-of-class assignments. This preparation gives you the knowledge or practice needed to engage in higher levels of learning during the live class sessions. If you are not prepared for the face-to-face sessions, you may struggle to keep pace with the activities occurring in the live sessions, and it is unlikely that you will reach the higher learning goals of the course. Similarly, you are expected to actively participate in the live class. Your participation fosters a rich course experience for you and your peers that facilitates overall mastery of the course objectives.

Academic Requirements and Grading:

Grades will be determined based on attendance and participation through 2 interactive means.

- All students (local and Whitney) are required to participate by attending:

1) all seminars

2) at least 3 virtual Coffee Talk hours with an outside speaker.

- You are strongly encouraged to attend all coffee talks. Given the diversity of topics, locations (national and international), and speakers, this is a unique opportunity to learn and interact with stellar investigators.

Grading: This class is S/U. All requirements listed below must be met to earn a "S".

Exam Policy: No exams

Policy Related to Missed Seminars:

- **Seminars will be fully excused for Conference attendance:** Please inform Course directors and Ms. Ruman at least two weeks before the absence. You will need to provide the conference name and dates.
- **Non-Conference Absences:**
 - 1st absence: attend an additional speaker lunch. Send an email so we know.
 - 2nd Absence: Attend another neuroscience related seminar, or watch video of seminar, and submit a written 1 page Summary.

Communication Guidelines: <http://teach.ufl.edu/wp-content/uploads/2012/08/NetiquetteGuideforOnlineCourses.pdf>

Academic Integrity: Students are expected to act in accordance with the University of Florida policy on academic integrity. As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge:

“We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied:

“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For additional information regarding Academic Integrity, please see Student Conduct and Honor Code or the Graduate Student Website for additional details:

<https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>

Please remember cheating, lying, misrepresentation, or plagiarism in any form is unacceptable and inexcusable behavior.

Online Faculty Course Evaluation Process:

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at

<https://gatorevals.aa.ufl.edu/students/> . Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Policy Related to Guests Attending Class:

Only registered students are permitted to attend class. However, we recognize that students who are caretakers may face occasional unexpected challenges creating attendance barriers. Therefore, by exception, a department chair or his or her designee (e.g., instructors) may grant a student permission to bring a guest(s) for a total of two class sessions per semester. This is two sessions total across all courses. No further extensions will be granted. Please note that guests are **not** permitted to attend either cadaver or wet labs. Students are responsible for course material regardless of attendance. For additional information, please review the [Classroom Guests of Students policy](#) in its entirety.

Support Services:

Accommodations for Students with Disabilities:

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the Disability Resource Center by visiting <https://disability.ufl.edu/students/get-started/> . It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester. The College is committed to providing reasonable accommodations to assist students in their coursework.

Counseling and Student Health:

Students sometimes experience stress from academic expectations and/or personal and interpersonal issues that may interfere with their academic performance. If you find yourself facing issues that have the potential to or are already negatively affecting your coursework, you are encouraged to talk with an instructor and/or seek help through University resources available to you.

- The Counseling and Wellness Center 352-392-1575 offers a variety of support services such as psychological assessment and intervention and assistance for math and test anxiety.
