Dr. Tezcan Ozrazgat-Baslanti

Research Associate Professor, Department of Medicine

Associate Director for Research, Intelligent Clinical Care Center (IC³)

tezcan@ufl.edu

352-273-6668

Office Hours: By Appointment

Preferred Course Communications: Email

Prerequisites: Doctoral student in the ERS-AI program or after approval from instructors.

Purpose and Outcome:

Through classroom lecture, oral presentation, and paper discussions, students will learn how to read, critically evaluate, and discuss research papers focusing on developing AI pipelines to solve a broad range of biomedical research problems, involving novel AI model development as well as AI ethics and trustworthiness. Students will learn how to present the scientific results orally to a broad group of stakeholders of clinical and biomedical AI involving fellow colleagues, lay persons, clinical doctors, and patients. They will gain in-depth knowledge about a broad range of biomedical research problems requiring AI to solve and gain insight into how to design pertaining experiments and ask a scientific question. Students will learn how to apply AI skills to answer new biomedical questions.

Course Overview:

This journal club will provide graduate students with the opportunity to further develop their skills in the reading, interpretation, and communication of current scientific research in biomedical AI.

Course Objectives and/or Goals:

Upon successful completion of this course, students will obtain an understanding of how to stay abreast of scholarly research in medicine as well as in basic bioscience, how artificial intelligence and machine learning can be leveraged to assist physicians, basic biologists, and patients and

improve healthcare outcomes, the importance of multidisciplinary team-oriented research in healthcare innovations, how to critique and appraise research findings, and how to use published research to further their own research.

Instructional Methods:

We will operate as an advanced graduate seminar, with students taking an active role in initiating and leading discussions. Attendance and active participation in all class discussions are required. We will hold seminar in person at the McKnight Brain Institute, L1-108. Reading assignments, guest speakers, and name of presenters will be posted on SharePoint and via email. Students out for illness may participate via Zoom if available in the room but should be prepared to have their camera turned on and to actively participate in discussion for the entirety of the class. Discussions will not be recorded or available for asynchronous viewing. Each paper for the dedicated week will be assigned a week prior to the class.

Description of Course Content:

Topical Outline/Course Schedule

This journal club will take place every Wednesday from 10:00 am to 11:00 am during the Spring semester. Note, this schedule is tentative and may change during the semester, for example to accommodate major weather events or unexpected changes in guest lecturers’ availability.

Academic Requirements and Grading:

Evaluation:

Each student is expected to present at least once during the semester and actively participate in the discussion every week. Student presenters will be selected by the instructors. Class participation will be evaluated based on intra-group and inter-group collaboration as well as active engagement in the class discussion.

Grading:

Satisfactory/Unsatisfactory. Grades will be determined based on class attendance, participation in paper discussions, and oral presentations.

More information on UF grading policy may be found at:

<https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/>

Exam Policy: No exams

Policy Related to Required Class Attendance:

Requirements for class attendance, assignments, excused absences, and other work in this course are consistent with university policies that can be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>

Students are forbidden from recording class discussions, presentations, and lectures.

Academic Integrity:

Students are expected to act in accordance with the University of Florida policy on academic integrity. As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge:

“We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

You are expected to exhibit behavior consistent with this commitment to the UF academic

community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied:

“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For additional information regarding Academic Integrity, please see Student Conduct and Honor Code or the Graduate Student Website for additional details:

<https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>

<http://gradschool.ufl.edu/students/introduction.html>

Please remember cheating, lying, misrepresentation, or plagiarism in any form is unacceptable and inexcusable behavior.

Online Faculty Course Evaluation Process:

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at

<https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Policy Related to Guests Attending Class:

Only registered students are permitted to attend class. However, we recognize that students who are caretakers may face occasional unexpected challenges creating attendance barriers.

Therefore, by exception, a department chair or his or her designee (e.g., instructors) may grant a student permission to bring a guest(s) for a total of two class sessions per semester. This is two sessions total across all courses. No further extensions will be granted. Please note that guests are **not** permitted to attend either cadaver or wet labs. Students are responsible for course material regardless of attendance. For additional information, please review the [Classroom Guests of Students policy](#) in its entirety.

Support Services:

Accommodations for Students with Disabilities

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the Disability Resource Center by visiting

<https://disability.ufl.edu/students/get-started/>. It is important for students to share their

accommodation letter with their instructor and discuss their access needs, as early as possible in the semester. The College is committed to providing reasonable accommodations to assist students in

their coursework.

Counseling and Student Health:

Students sometimes experience stress from academic expectations and/or personal and interpersonal issues that may interfere with their academic performance. If you find yourself facing issues that have the potential to or are already negatively affecting your coursework, you are encouraged to talk with an instructor and/or seek help through University resources available to you.

- The Counseling and Wellness Center 352-392-1575 offers a variety of support services such as psychological assessment and intervention and assistance for math and test anxiety. Visit their web site for more information: <http://www.counseling.ufl.edu>.
On line and in person assistance is available.
- You Matter We Care website: <http://www.umatter.ufl.edu/>. If you are feeling overwhelmed or stressed, you can reach out for help through the You Matter We Care website, which is staffed by Dean of Students and Counseling Center personnel.
- The Student Health Care Center at UF Health is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at UF Health offers a variety of clinical services. The clinic is located on the second floor of the Dental Tower in the Health Science Center.
